for your rights**

People are losing their jobs and their homes through no fault of their own. And many working people can't afford the basics like decent food and fuel bills.

The government bails out bankers and the rich but won't help those hardest hit by the economic crisis. This is not on!

Come and discuss the action we can take to defend our community.

Help build a movement that puts people before profit and gives ordinary people a direct say in decisions that affect their lives. Discuss a new People's Charter for Democracy.

CAN WE MAKE A DIFFERENCE? YES WE CAN! YES WE MUST!
